Junior in Computer Science at the University of Utah, looking for employment as a Software Engineer Intern to gain knowledge and expertise.

EDUCATION

BS, Computer Science | *University of Utah* [anticipated] May 2023
GPA 3.7 / 4.0 | Dean's List for 2 semesters

Full Stack JavaScript Web Development Bootcamp (Certificate) | *V School* July 2020

SKILLS

Java • C# • Node.js • MongoDB • Express.js • Mongoose • Git/GitHub
JavaScript • HTML • CSS • React.js • AJAX/HTTP • Styled Components

RELEVANT EXPERIENCE

Contract Web Developer | *Marin County Young Democrats* June – Aug. 2020
San Rafael, CA | www.marincountyyoungdemocrats.com

- Contracted to update website on Wix's website builder.
- Improved styling, layout, navigation bar; added rich text input for blog posts; implemented timeline with hover feature.
- Worked directly with client to brainstorm/review updates and preferences.

PROJECTS

Blogtopia | blogtopia.herokuapp.com July 2020

- Designed and programmed full-stack blog editing app as a final project at V School.
- Implemented user interface to create/edit a blog and make blog posts.
- Utilized AWS S3 to store uploaded images, the Unsplash API for (non-uploaded) images, TinyMCE for the rich text editor (for blog posts), MongoDB, Mongoose, Express.js, Node.js, React, CSS.
- Gained experience using styled components, modals, and image uploads.

Photo Sharing | photograph-share.herokuapp.com May 2020

- Collaborated with group using git/GitHub to program full-stack photo sharing social media app.
- Implemented user interface to post images, like/comment on images, and explore other profiles.
- Utilized firebase storage for images, MongoDB, Mongoose, Express.js, Node.js, React, firebase.

BookMark | bookmark-books.surge.sh March 2020

- Designed and programmed my first big project building a book search app.
- Implemented user interface to find books, get info on individual books, and save to separate lists.
- Utilized React (router, context, and hooks), CSS, the Google Books API, and axios for API calls and responses.
